Same Day and Next Day Delivery Services

Specialists in the UK-wide and international carriage of all classes of Dangerous Goods

Connect with us and follow online

“For over 35 years Toppspeed have provide exceptional courier services for clients who require certainty, compliance, and end-to-end traceability of their consignments, especially where the consequences of loss or delay are significantly high.”

We do this by offering these delivery options:

- Same day
- Next Day
- Warehousing
- Haulage
- International

Gillian Lockley
Managing Director of Toppspeed

Topspeed specialise in Urgent Same Day and Secure Overnight delivery services for the safe and efficient transportation of all classes of Dangerous Goods under ADR Regulations including:

- Class 1 Explosive Material
- Class 6.2 Infectious Substances
- Class 7 Radioactive Material
 - Biomedical and Radioactive
 - Secure and Prohibited

Drivers

- All are employed directly by Topspeed and have undergone comprehensive security checks including DBS and vetted to SC Home Office standards.
- Each driver wears a full Topspeed uniform with photo ID, hi-vis jacket, protective footwear and personal protection equipment (PPE)
- Every driver completes a specialist in-house training programme to ensure deliveries are made efficiently and precisely

Fleet

- All vehicles are fully monitored using Web Fleet Tracking Telematics and enables us to keep in touch with our drivers at all times.
- The Advanced Notification facility allows our clients the ability to see, in real-time, the exact location of the van carrying their goods.
- The Topspeed fleet contains Mercedes small, short and long wheelbase, Luton vans, dual-temperature-controlled vehicles and an 18-tonne truck
- Many vehicles have been customised with specialist equipment and additional slam-locks security.
- The fleet is kept pristine condition by being maintained and regularly serviced in our in-house workshop.
